IBM FileNet Content Manager 5.6.x: Introduction

Duration: 1 Day **Course Code: WF411G** **Delivery Method: Virtual Learning**

Overview:

This course provides technical professionals an introduction to FileNet Content Manager in a containerized environment. It teaches you how to work with an IBM FileNet Content Manager repository including how to access content using Content Navigator.
The course begins with an introduction to IBM Cloud Pak for Business Automation. You learn about IBM FileNet Content Manager container environment, features, and architecture. You access content using Content Navigator.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This course is for developers and administrators.
