Practical Data Science with Amazon SageMaker

Duration: 1 Day Course Code: GK0630 Delivery Method: Virtual Learning

Overview:

Artificial intelligence and machine learning (AI/ML) are becoming mainstream.

In this course, you will spend a day in the life of a data scientist so that you can collaborate efficiently with data scientists and build applications that integrate with ML. You will learn the basic process data scientists use to develop ML solutions on Amazon Web Services (AWS) with Amazon SageMaker. You will experience the steps to build, train, and deploy an ML model through instructor-led demonstrations and labs.
Course level: Intermediate
Duration: 1 day

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.
