ISO/IEC 27001 Information Security Management System Transition (PECB Certified) - Including Exam

Duration: 2 Days **Course Code: ISO27001T** **Delivery Method: Virtual Learning**

Overview:

The ISO/IEC 27001 Transition training course enables participants to thoroughly understand the differences between ISO/IEC 27001:2013 and ISO/IEC 27001:2022. In addition, participants will acquire knowledge on the new concepts presented by ISO/IEC 27001:2022.
The new version of ISO/IEC 27001 has been recently published and is now aligned with the new version of ISO/IEC 27002, which was published in February, 2022.
The major changes between ISO/IEC 27001:2022 and ISO/IEC 27001:2013 are noticed in the information security controls of Annex A, whereas a few other minor changes are present in the clauses of the standard too. Furthermore, the title of ISO/IEC 27001:2022 differs from the title of ISO/IEC 27001:2013, as now the standard is titled *Information security, cybersecurity and privacy protection — Information security management systems — Requirements*.
The "PECB ISO/IEC 27001 Transition" training course provides detailed information on the revised clauses, the new terminology, and the differences in the controls of Annex A. Additionally, this training course provides participants with the necessary knowledge to support organizations in planning and implementing the changes in their ISMS to ensure conformity with ISO/IEC 27001:2022. As such, you will be able to participate in projects to transition from an ISMS based on ISO/IEC 27001:2013 to an ISMS based on ISO/IEC 27001:2022.
Once you become acquainted with the new concepts and requirements of ISO/IEC 27001:2022 by attending the training course, you can sit for the exam, and if you successfully pass it, you can apply for the "PECB Certified ISO/IEC 27001 Transition" credential. This certificate will prove that you have up-to-date knowledge and professional capabilities to successfully update an ISMS based on the requirements of ISO/IEC 27001:2022.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This training course is intended for:
- Individuals seeking to remain up-to-date with ISO/IEC 27001 requirements for an ISMS
- Individuals seeking to understand the differences between ISO/IEC 27001:2013 and ISO/IEC 27001:2022 requirements
- Individuals responsible for transitioning an ISMS from ISO/IEC 27001:2013 to ISO/IEC 27001:2022
- Managers, trainers, and consultants involved in maintaining an ISMS
- Professionals wishing to update their ISO/IEC 27001 certificates

Objectives:

- **Upon successfully completing the training course, participants will be able to:**
- Explain the differences between ISO/IEC 27001:2013 and ISO/IEC 27001:2022
- Interpret the new concepts and requirements of ISO/IEC 27001:2022
- Plan and implement the necessary changes to an existing ISMS in accordance with ISO/IEC 27001:2022

Prerequisites:

- Participants who attend this training course need to have a fundamental understanding of information security concepts and ISO/IEC 27001 requirements.

Testing and Certification

The "PECB Certified ISO/IEC 27001 Transition" exam fully meets the requirements of the PECB Examination and Certification Program (ECP). It covers the following competency domains:

- **Domain 1:** Differences between main clauses of ISO/IEC 27001:2013 and ISO/IEC 27001:2022
- **Domain 2:** Differences between Annex A controls of ISO/IEC 27001:2013 and ISO/IEC 27001:2022

After successfully completing the exam, you can apply for the

credential shown on the table below. You will receive a certificate once you fulfill all the requirements of the credential.

Content:

Day 1: Introduction to ISO/IEC 27001:2022 and comparison to ISO/IEC 27001:2013	Day 2: Comparison between Annex A controls of ISO/IEC 27001:2013 and ISO/IEC 27001:2022

Additional Information:

Educational approach
- This training course is based on theory, and best practices used in the process of transitioning an ISMS from ISO/IEC 27001:2013 to ISO/IEC 27001:2022
- Lecture sessions are illustrated with quizzes
- Quizzes have a similar structure to the certification exam

General Information
- Certification and examination fees are included in the price of the training course.
- Participants will be provided with training course materials containing over 120 pages of information, practical examples, and quizzes.
- An attestation of course completion worth 14 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course.
- Candidates who have completed the training course but failed the exam are eligible to retake the exam once for free within a 12-month period from the initial date of the exam.
