

Palo Alto Networks: Panorama NGFW Management (PNGFWM)

Duration: 2 Days **Course Code: PAN-PNGFWM** **Delivery Method: Virtual Learning**

Overview:

The Palo Alto Networks Panorama: NGFW Management course is two days of instructor-led training that should help you to:

- Learn how to configure and manage the next-generation Panorama management server
- Gain experience configuring templates (including template variables) and device groups
- Gain experience with administration, log collection, and logging and reporting
- Become familiar with planning and design considerations for Panorama deployment

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

- Security Administrators
- Security Operations Specialists
- Security Analysts
- Security Engineers and Architects

Objectives:

- This course should help students gain in-depth knowledge about configuring and managing a Palo Alto Networks Panorama management server. Administrators that complete this course should become familiar with the Panorama management servers role in managing and securing the overall network.
- Network professionals will be shown how to use Panorama aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks next[1]generation firewalls.

Prerequisites:

Participants must be familiar with Palo Alto Networks next-generation firewall management and basic networking concepts, including routing and IP addressing.

In addition, participants should complete the following pre-requisites to be optimally prepared for the course:

- Firewall Essentials: Configuration and Management or equivalent experience.
- PAN-EDU-210 - Palo Alto Networks: Firewall Essentials: Configuration and Management (EDU-210)

Testing and Certification

Palo Alto Networks: Certified Next-Generation Firewall Engineer

Content:

Course Modules

1 - Initial Configuration

2 - Adding Firewalls

3 - Templates

4 - Device Groups

5 - Log Collection and Forwarding

6 - Using Panorama Logs

7 - Panorama Administrative Accounts

8 - Reporting

9 - Troubleshooting

Additional Information:

Palo Alto Networks Education

The technical curriculum developed by Palo Alto Networks and delivered by Palo Alto Networks Authorized Training Partners helps provide the knowledge and expertise you need to protect our digital way of life. Our trusted certifications validate your knowledge of the Palo Alto Networks product portfolio and your ability to help prevent successful cyberattacks and safely enable applications.
