SAFe® 6.0 Lean Portfolio Management (LPM) – Including Exam

Duration: 2 Days **Course Code: SAFE-LPM** **Delivery Method: Virtual Learning**

Overview:

Aligning Strategy with Execution using the Scaled Agile Framework

Aligning strategy with execution is critical to any organization's success and a key aspect of Scaled Agile Framework®. With a Lean Portfolio Management (LPM) approach, you can collaborate across silos, empower teams, and organize around value to adapt to what customers want, faster.

The Lean Portfolio Management course helps executives, project management officers (PMOs) and other key stakeholders plan dynamically and be flexible enough to adjust initiatives and budgets as the market changes. The LPM course provides the guidance and tools attendees need to work effectively in remote environments with distributed teams. You'll learn how to connect portfolio strategy and initiatives to the planning and execution of work, how to integrate feedback from participatory budgeting, and how to adapt to change while maintaining your funding vision and roadmap.

An exam voucher is included with this course

Updated 4/2026

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

Our Lean Portfolio Management (LPM) course is designed for leaders who need to manage an agile approach to portfolio planning, funding, and operations that bridges the gap between vision and delivery. This course gives you the tools to lead with clarity and agility, whether you're already practicing SAFe or just starting to scale.

- Executive Leaders
- Enterprise Architects
- Product Management Leaders
- PMO Leaders
- Agile Coaches
- SAFe Practice Consultants

Objectives:

- Earn your SAFe Lean Portfolio Manager (LPM) certification and build credibility as an enterprise agile leader.
- Learn how to apply Lean thinking to budgeting, governance, and portfolio operations.
- Gain the skills to organize around value, align strategic planning, and guide Agile execution across the organization.

Prerequisites:

- None, but familiarity with SAFe and Agile principles is recommended or attendance of Leading SAFe® or SAFe® for Teams

Testing and Certification

The first exam attempt is included in the course registration fee and must be taken within 60 days of course completion. If a second attempt is required, a retake fee will be applied. Please refer to the Retake Policy below:

First retake: Available immediately after the first failed attempt

Second retake: Available 10 days after the first retake

Third retake: Available 30 days after the second retake

Additional retakes: Require a 30-day waiting period between attempts

Content:

Aligning Strategy with Execution

Learn how to connect portfolio initiatives directly to business strategy and keep investments focused on the most important outcomes.

Lean Budgeting and Portfolio Flow

Explore how to fund value streams, establish guardrails, and manage epics using portfolio kanban to support continuous, lean flow.

Running Agile Portfolio Operations

Gain practical tools for coordinating across value streams, managing change, and supporting excellence through agile PMOs and communities of practice.

Designing a Plan for LPM Adoption

Capture your current state, define your portfolio vision, and build a step-by-step plan to bring Lean Portfolio Management to life in your organization.
