ArchiMate® Bootcamp

Varighed: 3 Days   Kursus Kode: AMCV3   Version: 3.1   Leveringsmetode: Virtuel deltagelse

Beskrivelse:

This is a three-day ArchiMate® Bootcamp course for those who wish to achieve ArchiMate® Practitioner – level 2 certification from scratch. From introduction to advanced applications, you'll learn the structure, key concepts and techniques of the ArchiMate® standard, and will be able to model and visualize architectures.
After that you will learn advanced applications of the modeling language and advanced techniques, complex modeling situations and direct applications to your own real-world examples. Upon successful completion of this course you will be ready to take the ArchiMate®Foundation and Practitioner exam at a Pearson Vue Testing Center.
This ArchiMate® course is being run by Global Knowledge in association with Van Haren Publishing B.V. and is accredited by The Open Group.
Exam vouchers are included in the price of this course.

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Målgruppe:

This training course is very suitable for anyone who wants to be able to read and/or create architecture models:
- Architects
- Business Analysts
- Information Analysts
- Designers
- Product Owners
- Project leaders

Agenda:

- **Understand the background, key concepts and applications of ArchiMate® Core for modeling and describing architectures**

- Be able to use the ArchiMate® language and techniques to visualize and communicate architectures

- Understand the additional layers and aspects of the ArchiMate® standard, their viewpoints and their application to core concepts

- Be able to apply the derivation rules for relationships in the language

- Understand the language customization mechanism

- Be able to apply the ArchiMate® standard in complex modeling situations

- Be able to complete the ArchiMate® level 1 & 2 exams

Forudsætninger:

- No specific prerequisites.

Test og certificering

The exams are included in the course fee. Certification is only achieved after passing the following 2 exams:

ArchiMate® Part 1

- Multiple-choice
- 40 questions/60 minutes
- Supervised

- No Open Book
ArchiMate® Part 2

- Complex multiple-choice
- scenario-based
- 8 questions/90 minutes
- Supervised
- Open Book

Indhold:

- Course introduction
- Basic Concepts and Definitions of ArchiMate® language
- Language Structure
- Generic Metamodel
- Modeling relationships
- Motivation Modeling

- Strategy Modeling
- The business layer
- The application layer
- The technology layer
- Physical Elements
- Modeling cross-layer dependencies

- The implementation and migration extension
- ArchiMate® viewpoints and views
- Language Customization Mechanisms
- ArchiMate® Examination Program
- Course summary

Additional Information:

Please bring your laptop/tablet for digital courseware.
