
System Operator for IBM i

Varighed: 4 Days **Kursus Kode: AS24G** **Leveringsmetode: Virtuel deltagelse**

Beskrivelse:

New system operators can develop basic-to-intermediate skills needed for day to day operations of the iSeries system. You'll learn the Character Driven Interface (Green Screens) and iSeries Navigator (Graphical User Interface) where applicable.

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Målgruppe:

Those who have responsibility for daily system operations. It is not intended for technical audiences who are seeking an in-depth look at how the iSeries 400 system works. This audience should instead attend the Concepts and facilities workshop OL49

Agenda:

- On completion you will be able to: Send, display, and respond to messages Use the on-line help and reference material Monitor and control job queues, active jobs and output queues Create and change User Profiles Use authorization lists and group profiles Start and Stop the Operating System Manage system devices, user display stations and printers Save and restore objects and libraries Monitor job and history logs Diagnose System problems Order, receive and install PTFs.
-

Forudsætninger:

None
