

VMware Workspace ONE: Integrating Access with UEM

Varighed: 2 Days Kursus Kode: AWWS1IDW Version: 21.x

Beskrivelse:

In this two-day VMware Workspace ONE course, you learn how to navigate and manage the VMware Workspace ONE® Access™ console. Through a combination of hands-on labs, simulations, and interactive lectures, you configure enterprise and productivity integration, Digital Workspace integration, authentication methods, access policies, web and virtual resource integrations, and single sign-on for a web resource. The principles of identity and access management are addressed throughout the course. You will leave the training empowered with the foundational skills and knowledge needed to effectively implement the Workspace ONE solution to deliver the Digital Workspace experience.

Målgruppe:

Workspace ONE administrators Experienced mobility and identity administrators Account managers, solutions architects Solutions engineers Sales engineers Consultants

Agenda:

- By the end of the course, you should be able to meet the following objectives:
 - Identify and describe major components of the Workspace ONE solution
 - Identify and describe the enterprise integration and productivity components
 - Explain the concept of the Digital Workspace and the Digital Workspace experience
 - Summarize the Workspace ONE deployment architecture
 - Explain the High Availability and Disaster Recovery concept for Workspace ONE deployment
 - Integrate Workspace ONE UEM with Workspace ONE Access for the Digital Workspace experience
 - Identify authentication technologies used in Workspace ONE
 - Navigate the Workspace ONE Access console
 - Install, configure, and validate integrated components
- Explain integration of Workspace ONE solution with directory services
- Demonstrate end-user Workspace ONE portal configuration
- Leverage the Adaptive Management approach to manage endpoints
- Provision and secure web and virtual applications in the Workspace ONE Access console
- Enable the unified application catalog
- Apply single sign-on and multifactor authentication
- Integrate with virtual desktop infrastructure (VMware Horizon® virtual desktops and applications)
- Create and implement access policies and role-based access controls
- Apply general troubleshooting techniques

Forudsætninger:

- VMware Workspace ONE: Skills for Unified Endpoint Management [V20.x] - AWWS1S
- VMware Workspace ONE: Unified Endpoint Management Bootcamp [V20.x] - VMWS1UEMBC
- AWWS1S - VMware Workspace ONE: Skills for UEM
- VMWS1UEMBC - VMware Workspace ONE: UEM Bootcamp

Indhold:

1 Course Introduction	<ul style="list-style-type: none">• Describe the VMware recommended Workspace ONE Architecture• Examine High Availability and Disaster Recovery options	<ul style="list-style-type: none">• Formulate productivity integrations needs• Deploy the Unified Access Gateway• Install and configure VMware Tunnel™
2 Digital Workspace	<h3>5 Digital Workspace Integration</h3> <ul style="list-style-type: none">• Integrate Directory Services with Workspace ONE UEM and Workspace ONE Access• Synchronize users and groups from Directory to Workspace ONE consoles• Integrate Certificate Authority with Workspace ONE UEM	<ul style="list-style-type: none">• Install and configure the VMware Content Gateway• Install and configure VMware AirWatch® Secure Email Gateway™
3 Workspace ONE Access Console	<ul style="list-style-type: none">• Outline the steps of performing Digital Workspace Integration• Integrate the Digital Workspace• Stage resources for Workspace ONE registration and management• Register and manage endpoints with Workspace ONE	<h3>7 Web and Virtual Application Management</h3> <ul style="list-style-type: none">• Formulate a web and virtual application management strategy• Configure web and virtual applications• Manage web and virtual applications
4 Workspace ONE Platform Architecture	<ul style="list-style-type: none">• Elevate the management level of an endpoint from Workspace ONE Registered to Workspace ONE Managed	<h3>8 Single Sign-On for Applications</h3> <ul style="list-style-type: none">• Describe the single sign-on capability provided by Workspace ONE• Summarize that single sign-on can be used for native mobile applications• Outline the authentication methods supported by Workspace ONE• Evaluate the effectiveness of Workspace ONE® Verify
	<h3>6 Productivity Integration</h3>
