

## DAMA DMBOK Data Integration & Interoperability Specialist

Varighed: 1 Day    Kursus Kode: CDMP-DII    Leveringsmetode: Virtuel deltagelse

### Beskrivelse:

This 1-day DAMA DMBok Data Management Specialist course addresses all required disciplines required for the Data Integration & Interoperability specialist exam by the international standard, DAMA Body of Knowledge (DMBOK2) and is aimed at individuals interested in developing concrete professionalism in the field of Data Management with a specialisation in Data Integration & Interoperability.

This course provides a solid foundation of the different disciplines across the complete Data Management spectrum concerning Data Integration & Interoperability and introduces students to the different levels of Industry professional certification the DAMA Certified Data Management Professional (CDMP).

The Data Integration & Interoperability specialist course explores the management of the movement and consolidation of data within and between applications and organizations.

### Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

### Målgruppe:

The course of Data Integration & Interoperability Specialist is designed for Analytics Managers, BI and ETL Developers, Data Analysts and Scientists, Database Administrators, Database Modelers, and individuals interested in Data Warehousing. In addition, there are no specific prerequisites for this course. Business Intelligence & Data Warehouse developers & architects Data Modellers Developers Data & Enterprise Architects Data Analysts Solution Architects Application Architects Information Architects Business Analysts Database Administrators Project / Programme Managers IT Consultants Data Governance Managers Data Quality Managers Information Quality Practitioners

### Agenda:

- To help understand what Data Integration & Interoperability is.
- To explain the role of Data Integration & Interoperability and the tools involved.
- To help comprehend the movement of data through and between organizations.

### Forudsætninger:

■
