GDPR - Certified Information Privacy Manager

Varighed: 2 Days   **Kursus Kode: CIPM**   **Leveringsmetode: Virtuel deltagelse**

Beskrivelse:

The Certified Information Privacy Manager (CIPM) is the world's first and only certification in privacy programme management. When you earn a CIPM, it shows that you know how to make a privacy programme work for your organisation. In other words, you're the go-to person for day-to-day operations when it comes to data protection.
The CIPM program was developed by the International Association of Privacy Professionals (IAPP), which is the world's largest comprehensive global information privacy community and resource. The CIPM certification also holds accreditation under ISO 17024: 2012.
There's a lot to know, there's a lot at stake and there's a lot of opportunity for data protection professionals with the right training and education. Achieving a CIPM credential shows that you have a practical and comprehensive knowledge of how data protection programmes should work across an organization.

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Målgruppe:

Data Protection Officers
Data Protection Managers
Auditors

---

Indhold:

The course is broken into ten modules:

Module 1: Introduction to privacy program management

Identifies privacy program management responsibilities, and describes the role of accountability in privacy program management.

Module 2: Privacy governance

- Examines considerations for developing and implementing a privacy program, including the position of the privacy function within the organization, role of the DPO, program scope and charter, privacy strategy, support and ongoing involvement of key functions and privacy frameworks.

Module 3: Applicable laws and regulations

Discusses the regulatory environment, common elements across jurisdictions and strategies for aligning compliance with organizational strategy.

Module 4: Data assessments

- Relates practical processes for creating and using data inventories/maps, gap analyses, privacy assessments, privacy impact assessments/data protection impact assessments and vendor assessments.

Module 5: Policies

Describes common types of privacy-related policies, outlines components and offers strategies for implementation.

Module 6: Data subject rights

- Discusses operational considerations for communicating and ensuring data subject rights, including privacy notice, choice and consent, access and rectification, data portability, and erasure and the right to be forgotten.

Module 7: Training and awareness

Outlines strategies for developing and implementing privacy training and awareness programs.

Module 8: Protecting personal information

- Examines a holistic approach to protecting personal information through privacy by design.

Module 9: Data breach incident plans

Provides guidance on planning for and responding to a data security incident or breach.

Module 10: Measuring, monitoring and auditing program performance

Relates common practices for monitoring, measuring, analyzing and auditing privacy program performance.
