

Cloud Native Operations Bootcamp

Varighed: 5 Days Kursus Kode: CN251

Beskrivelse:

CN251 is an intensive cloud native training bootcamp for IT professionals looking to develop skills in deploying and administering containerized applications in Kubernetes. Over the course of five days, students will start with learning about first principles for application containerization followed by learning how to stand up a containerized application in Kubernetes, and, finally, ramping up the skills for day-1 operating tasks for managing a Kubernetes production environment. CN251 is an ideal course for those who need to accelerate the development of their IT skills for a rapidly-changing technology landscape.

Målgruppe:

This course is targeted at students with the following:

Motivations: Use and manage containers from first principles & architect basic applications for Kubernetes

Roles: general technical audiences & IT professionals
