

## EC-Council Certified Offensive AI Security Professional (COASP) + Exam voucher

Varighed: 5 Days    Kursus Kode: COASP    Leveringsmetode: Company event (Firmakursus)

### Beskrivelse:

**Certified Offensive AI Security Professional (COASP) validates the competencies required for practitioners who need to demonstrate offensive AI security skills, emulating adversaries, validating defenses, and leading red-team/blue-team exercises to keep AI resilient, reliable, and auditable.**

The Certified Offensive AI Security Professional (COASP) equips you to identify and neutralize AI-specific threats before attackers do. And Bridges security, engineering, and data science so controls exist across the full AI life cycle.

Participants will gain hands-on experience to perform end-to-end adversarial testing and deliver defensive validation evidence including the ability to simulate adversarial AI kill chains, Harden AI architectures by secure system prompts, context windows, tool integrations, RAG pipelines, and agent memory, Conducting AI security assessments aligned to MITRE ATLAS, OWASP LLM/ML Top 10, NIST AI RMF, and DoD Test & Evaluation practices, This course covers how to build SOC-ready capabilities for AI-focused detection logic, incident playbooks, and forensic procedures, & how to execute prompt injection, adversarial prompting, Assess AI supply-chain risk, Implement defensive engineering controls and Produce assurance and compliance artifacts.

By the end of the course, learners will be well-prepared to take the Certified Offensive AI Security Professional (COASP) exam and demonstrate the ability to exploit vulnerabilities in LLMs and agents, and build defense that survive real world attacks, learners will master offensive techniques that break AI before the attackers do

This course includes an exam voucher.

### Firmakursus

Med et firmakursus bliver jeres it-kompetenceudvikling målrettet jeres behov. Det betyder, at vi hjælper med at finde og sammensætte det helt rigtige kursusindhold og den helt rigtige form. Kurset kan afvikles hos os eller kunden, standard eller virtuelt.

### Målgruppe:

This course is ideal for security professionals who wish to master offensive and defensive AI security techniques:

#### OFFENSIVE SECURITY

- Penetration Tester/Ethical Hacker
- Red Team Operator/Red Team Lead
- Offensive Security Engineer
- Adversary Emulation/Purple Team Specialist

#### DEFENSIVE SECURITY

- SOC Analyst (Tier 2/3)/Detection Engineer
- Blue Team Engineer/Threat Detection Engineer
- Incident Responder (IR)/DFIR Analyst
- Security Operations Manager (SOC Lead)

#### THREAT INTELLIGENCE

- Malware Analyst/Threat Researcher
- Cyber Threat Intelligence (CTI) Analyst – AI Focus
- Fraud/Abuse Detection Analyst (AI-enabled threats)

#### AI/ML ENGINEERING

- ML Engineer/Applied AI Engineer
- GenAI Engineer (RAG/Agents)
- AI/LLM Application Developer
- MLOps/AI Platform Engineer

#### SECURITY ENGINEERING

- DevSecOps/Secure DevOps Specialist
- Application Security Engineer (LLM Apps/APIs)
- Product Security Engineer/AI Product Security

#### AI SECURITY ARCHITECTURE

- Secure AI Engineer/AI Security Architect
- LLM Systems Engineer

### Agenda:

- After this course participants should be able to:
- Execute prompt injection, jailbreaking, and prompt chaining
- Apply OWASP LLM Top 10 and MITRE ATLAS frameworks
- Conduct adversarial ML attacks, including data poisoning and model

attacks

- Red-team AI agents, including memory corruption, tool misdirection, and checkpoint manipulation

extraction

- Build detection rules and hardening strategies for AI systems

---

## Forudsætninger:

- EC-AIE - EC-Council Artificial Intelligence Essentials (AIE) + Exam voucher

## Test og certificering

Certified Offensive AI Security Professional COASP certification equips candidates to validate advanced skills in offensive testing, assessment, and defense of artificial intelligence systems. It is designed for cybersecurity professionals who are responsible for identifying, exploiting, and mitigating vulnerabilities unique to AI driven technologies, including machine learning models, generative AI systems, and AI supply chains.

- Certified Offensive AI Security Professional (COASP)

---

## Yderligere Kurser:

Learners can progress to EC-Council's Certified AI Program Manager (C|AIPM) or Certified Responsible AI Governance & Ethics (C|RAGE), depending on career goals.

- CAIPM - EC-Council Certified AI Program Manager (CAIPM) + Exam voucher
- CRAGE - EC-Council Certified Responsible AI Governance & Ethics (CRAGE) + Exam voucher

---

## Indhold:

|   |   |   |
|---|---|---|
| Module 1 Offensive AI and AI System Hacking Methodology | Module 5 Adversarial Machine Learning and Model Privacy Attacks | Module 9 AI Security Testing, Evaluation, and Hardening |
| Module 2 AI Reconnaissance and Attack Surface Mapping   | Module 6 Data and Training Pipeline Attacks                     | Module 10 AI Incident Response and Forensics            |
| Module 3 AI Vulnerability Scanning and Fuzzing          | Module 7 Agentic AI and Model-to-Model Attacks                  |   |
| Module 4 Prompt Injection and LLM Application Attacks   | Module 8 AI Infrastructure and Supply Chain Attacks             |   |

---
