

## Implementing Cisco Application Centric Infrastructure

Varighed: 5 Days    Kursus Kode: DCACI    Version: 1.2    Leveringsmetode: Virtuel deltagelse

### Beskrivelse:

The Implementing Cisco Application Centric Infrastructure course shows you how to deploy and manage the Cisco® Nexus® 9000 Series Switches in Cisco Application Centric Infrastructure (Cisco ACI®) mode. You will learn how to configure and manage Cisco Nexus 9000 Series Switches in ACI mode, how to connect the Cisco ACI fabric to external networks and services, and fundamentals of Virtual Machine Manager (VMM) integration. You will gain hands-on practice implementing key capabilities such as fabric discovery, policies, connectivity, VMM integration, and more. This course is based on ACI Software v5.2 release.

This course helps you prepare to take the exam, **Implementing Cisco Application Centric Infrastructure** (300-620 DCACI), which leads to **CCNP® Data Center** and **Cisco Certified Specialist – Data Center ACI Implementation** certifications.

**This course earns you 40 Continuing Education (CE) credits towards recertification .**
