

EC-Council Certified Incident Handler (E|CIH) + Exam voucher

Varighed: 3 Days Kursus Kode: ECIH Leveringsmetode: Virtuel deltagelse

Beskrivelse:

The EC-Council Certified Incident Handler program is designed to provide the fundamental skills to handle and respond to the computer security incidents in an information system. The course addresses various underlying principles and techniques for detecting and responding to current and emerging computer security threats. Students will learn how to handle various types of incidents, risk assessment methodologies, and various laws and policy related to incident handling. After attending the course, they will be able to create incident handling and response policies and deal with various types of computer security incidents.

The comprehensive training program will make students proficient in handling and responding to various security incidents such as network security incidents, malicious code incidents, and insider attack threats.

In addition, the students will learn about computer forensics and its role in handling and responding to incidents. The course also covers incident response teams, incident reporting methods, and incident recovery techniques in detail. When a student leaves this intensive 2 day class they will have hands on understanding and experience in Incident Handling.

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Målgruppe:

This course will significantly benefit incident handlers, risk assessment administrators, penetration testers, cyber forensic investigators, vulnerability assessment auditors, system administrators, system engineers, firewall administrators, network managers, IT managers, IT professionals and anyone who is interested in incident handling and response.

Agenda:

- After completion of this course, students should have an understanding of:
 - Handling Malicious Code Incidents
- Introduction to Incident Response and Handling
 - Handling Insider Threats
- Risk Assessment
 - Forensic Analysis and Incident Response
- Incident Response and Handling Steps
 - Incident Reporting
- CSIRT
 - Incident Recovery Module 11: Security Policies and Laws
- Handling Network Security Incidents

Test og certificering

This course prepares you for EC-Council Certified Incident Handler exam 212-89.

Response

- Module 09: Incident Reporting
- Module 10: Incident Recovery
- Module 11: Security Policies and Laws

Incident Response

- Module 09: Incident Reporting
 - Module 10: Incident Recovery
 - Module 11: Security Policies and Laws
-
