

Data & AI Strategy: From Roadmap to Implementation

Varighed: 2 Days Kursus Kode: GK-AIS Leveringsmetode: Virtuel deltagelse

Beskrivelse:

This 2-day workshop is your ticket to launching a solid data and AI strategy at your organization.

On the first day, you'll learn how to sketch out a roadmap, and build a strong foundation. You'll learn about Data & AI Strategy fundamentals, craft the essentials, and devise a strategic roadmap during engaging sessions and hands-on workshops.

On the second day, we'll teach you how to take initial implementation steps, engage stakeholders effectively, derive actionable insights, and plan ahead for future strides through immersive workshops and practical session. We'll also dive into using AI tools like ChatGPT to boost business efficiency.

After this training, you'll be equipped to get started right away!

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Målgruppe:

This training is intended for team leads and professionals that are ready to leverage their work to an AI- and data-driven level.

Agenda:

- Learn how to align a data and AI strategy with their business goals.
- Understand the essentials of building a data-driven culture and governance.
- Get skilled in creating actionable roadmaps and engaging stakeholders.
- Dive into practical uses of AI tools like ChatGPT for business tasks.
- Be ready to kickstart data and AI projects with clear, implementable plans.
