

## Amazon Quick for AI-Powered Productivity and Business Intelligence (AQAPBI)

Varighed: 1 Day    Kursus Kode: GK910038    Version: 1.0.2

---

### Beskrivelse:

**Learn how to use Amazon Quick to analyze data, organize knowledge, build AI chat agents, and automate workflows. Hands-on labs help you apply AI-powered productivity and BI skills in your organization.**

You will learn how to use Quick to work more efficiently with data and enterprise information sources. You will learn how to navigate the Amazon Quick workspace and visualize and analyze data with Quick Sight. You will also organize knowledge resources in Quick Spaces, build custom AI chat agents, and automate workflows with Quick Flows. Hands-on labs reinforce each major topic, giving you the practice needed to apply these skills in your organization.

*Updated August 2026*

- 

### Forudsætninger:

**We recommend that attendees of this course have:**

- Basic understanding of cloud computing concepts
- Familiarity with web-based applications

### Test og certificering

None

---

### Yderligere Kurser:

- GK0630 - Practical Data Science with Amazon SageMaker
  - GK110001 - Amazon SageMaker Studio for Data Scientists
  - GK910029 - Machine Learning Engineering on AWS
-

## Indhold:

### Module 1: Introduction to Amazon Quick

- The agentic AI-powered workspace
- Amazon Quick core capabilities
- Navigating Amazon Quick

### Module 2: Visualizing and Analyzing Data with Amazon Quick Sight

- Introduction to AI-powered analytics with Amazon Quick Sight
- Creating and managing datasets for analysis
- Building interactive dashboards and visualizations
- Understanding scenarios and data stories
- Hands-On Lab: Exploring the Generative Business Intelligence Features in Amazon Quick Sight

### Module 3: Amazon Quick Spaces and Chat Agents

- Knowledge bases and connectors
- Using Quick spaces for aggregating resources
- Chat agents in Amazon Quick
- Effective prompting techniques
- Hands-On Lab: Create an HR agent with Amazon Quick

### Module 4: Amazon Quick Flows and Research

- Orchestrating agentic workflows with Quick Flows
- Creating and running flows in Quick flows
- Launching research projects with Quick Research
- Hands-On Lab: Conducting Research and creating Flows with Amazon Quick

---

## Additional Information:

### Activities:

This course includes presentations, hands-on labs, demonstrations, assessments, and group discussion.
