

ISO/IEC 27005 Foundation (PECB certified) + exam

Varighed: 2 Days Kursus Kode: IS27005F Version: 6.0 Leveringsmetode: Virtuel deltagelse

Beskrivelse:

By attending this 2-day ISO/IEC 27005 Foundation training course, participants will learn more about the structure of the standard including information security risk assessment, treatment, acceptance, communication and consultation, and monitoring and review. They will also gain basic knowledge related to information security risk management based on other standards such as ISO/IEC 27001 and ISO 31000. After attending the training course, you can sit for the exam and, if you successfully pass it, you can apply for a "PECB Certified ISO/IEC 27005 Foundation" credential. A PECB Foundation certificate shows that you have knowledge on the fundamental concepts, principles, methodologies, processes, and management approaches used in information security risk management.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Målgruppe:

Individuals involved in information security risk management
Individuals seeking to gain knowledge about the main processes of information security risk management
Individuals interested in pursuing a career in information security risk management

Agenda:

- Understand the basic concepts of information security risk management
- Acknowledge the correlation between ISO/IEC 27005, ISO 31000, ISO/IEC 27001, and other standards and regulatory frameworks
- Understand the approaches, methods, and techniques used for the management of information security risks

Forudsætninger:

■

Test og certificering

The "PECB Certified ISO/IEC 27005 Foundation" exam complies with the PECB Examination and Certification Programme (ECP) requirements. The exam covers the following competency domains:

Domain 1: Fundamental concepts of information security risk management

Domain 2: Information security risk management approaches and processes

For specific information about exam type, languages available, and other details, please visit the [List of PECB Exams](#) and the [Examination Rules and Policies](#).

After successfully passing the exam, you can apply for the credential shown on the table below. You will receive the certificate once you comply with all the requirements related to the selected credential.

Indhold:

Day 1: Introduction to fundamental concepts of information security risk management and ISO/IEC 27005

Day 2: Information security risk management and certification exam
