

ISO/IEC 27001 Foundation (PECB certified) + exam

Varighed: 2 Days Kursus Kode: ISO27001F Version: 6.3 Leveringsmetode: Virtuel deltagelse

Beskrivelse:

ISO/IEC 27001 Foundation training allows you to learn the basic elements to implement and manage an Information Security Management System as specified in ISO/IEC 27001. During this training course, you will be able to understand the different modules of ISMS, including ISMS policy, procedures, performance measurements, management commitment, internal audit, management review and continual improvement.

After completing this course, you can sit for the exam and apply for the "PECB Certified ISO/IEC 27001 Foundation" credential. A PECB Foundation Certificate shows that you have understood the fundamental methodologies, requirements, framework and management approach.

Please Note:

Lecture sessions are illustrated with practical questions and examples

Practical exercises include examples and discussions

Practice tests are similar to the Certification Exam

Certificate and examination fees are included in the price of the training course

Training material containing over 200 pages of information and practical examples will be distributed

An Attestation of Course Completion certificate worth 14 CPD (Continuing Professional Development) credits will be issued to the participants who have attended the training course

In case of exam failure, you can retake the exam within 12 months for free

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Målgruppe:

Managers and consultants seeking to know more about information security. Professionals wishing to get acquainted with ISO/IEC 27001 requirements for an ISMS. Individuals engaged in or responsible for information security activities in their organization. Individuals wishing to pursue a career in information security

Agenda:

■ After completing this course you should be able to:

- Describe the main information security management concepts, principles, and definitions

- Explain the main ISO/IEC 27001 requirements for an information security management system (ISMS)

- Identify approaches, methods, and techniques used for the implementation and management of an ISMS

Forudsætninger:

Attendees should meet the following prerequisites:

- None specified.
