Introduction to navigating the modern Contact Center

Varighed: 1 Day Kursus Kode: M-AB7011 Leveringsmetode: Virtuel deltagelse

Beskrivelse:

Discover how modern contact centers work—explore intelligent routing, omnichannel conversations, and day to day workflows in Dynamics 365 Contact Center.
This course introduces Microsoft Dynamics 365 Contact Center, focusing on its core features and user experiences. Participants will gain an understanding of the platform's work allocation capabilities, learn how conversations are efficiently routed, and explore the day-to-day workflows of both Contact Center representatives and supervisors. By the end of the course, learners will be equipped with the knowledge to navigate and manage the Dynamics 365 Contact Center environment effectively.
Updated 19/4/2026

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Målgruppe:

This course is intended for you if you're seeking to start your journey using Contact Center as a Service (CCaaS). You aim to grasp how Contact Center as a Service (CCaaS) can benefit your organization by recognizing the importance of modern contact centers, integrating with both first- and third-party CRM systems, and efficiently assisting and resolving support-related challenges. You also seek to communicate seamlessly across multiple channels, enhance customer service representative productivity using AI and collaboration tools, and develop a comprehensive understanding of the essential components that make up CCaaS solutions.

Agenda:

- **By the end of this course, learners will be able to:**
- Build and deploy AI solutions on Azure to extract insights from visual data.
- Analyze images and visual content to derive meaningful insights that support business and application scenarios on Azure
- Implement secure and scalable AI workloads on Azure for visual data processing and analysis.
- Evaluate and optimize visual data AI solutions using Azure-native tools and services.

Forudsætninger:

A basic understanding of customer service operations and communication tools is recommended.
