

Build custom engine agents with the Microsoft 365 Agents SDK (MS-4015)

Varighed: 1 Day Kursus Kode: M-MS4015 Leveringsmetode: Virtuel deltagelse

Beskrivelse:

Build intelligent custom engine agents using the LLMs and AI components of your choice with the Microsoft 365 SDK

In this course, you'll learn how to build intelligent custom engine agents using the LLMs and AI components of your choice with the Microsoft 365 SDK. These custom engine agents can also be used to extend Microsoft 365 Copilot. This course has been created by Microsoft as a "Bring Your Own Environment" course, allowing individuals to use their personal devices and settings. If a student wants to complete the hands-on activities, the individual must bring their own CoPilot environment. Otherwise, demonstrations and lectures will be conducted by the instructor.

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Forudsætninger:

- Familiarity with Teams Toolkit, Visual Studio Code, Microsoft Teams, and creating chat bots.

Indhold:

Module 1: Build Custom Engine Agents with the Microsoft 365 Agents SDK

- Understand Microsoft 365 Agents SDK
- Utilize an Azure OpenAI model to create an Agent
- Build your custom Agent using Microsoft 365 Agents SDK
