

EXIN Service Integration and Management (SIAM™) Professional – Including Exam

Varighed: 3 Days Kursus Kode: SIAMP Version: 3 Leveringsmetode: Virtuel deltagelse

Beskrivelse:

The EXIN SIAM™ Professional certification, based on the Scopism SIAM BoK version 3, gives you proven, job-ready SIAM expertise that organizations actively look for.

This certification validates that you can handle real-world complexity by integrating multiple service providers, navigating competing priorities, and maintaining control in fast-changing environments.

Be the professional decision-makers trust to successfully manage services, govern suppliers, and deliver measurable business outcomes.
Updated 7/6/2026

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Målgruppe:

This certification is designed for professionals who work in or aspire to work in complex service ecosystems, including:

- Service Managers and Service Management Practitioners
- SIAM Consultants and Service Integrators
- Service and Enterprise Architects
- Supplier, Vendor, and Contract Managers
- Business Relationship Managers
- Project, Program, and Transformation Managers
- Professionals responsible for retained capabilities or intelligent client functions

Agenda:

- **This certification equips you to:**
- Design a SIAM strategy aligned with business goals, sourcing models, and organizational constraints.
- Integrate multiple internal and external service providers into one coherent, business-facing ecosystem.
- Define and operate governance frameworks that drive accountability, transparency, and performance.
- Plan and execute SIAM implementations, including onboarding and offboarding providers with minimal disruption.
- Run, measure, and continuously improve a SIAM ecosystem using meaningful performance insights.
- Manage organizational change across people, processes, and suppliers — not just technology.

Forudsætninger:
