

Strategic Portfolio Management (SPM) Fundamentals

Duration: 3 Days **Course Code: SNSPMF** **Delivery Method: Virtuel deltagelse**

Overview:

Strategic Portfolio Management is the process an organization uses to select, prioritize, and manage resources within its portfolio of programs, projects, and initiatives, which are used to meet strategic goals and objectives.

In this course, you will be introduced to the Strategic Portfolio Management (SPM) applications and learn how SPM encompasses a range of business capabilities, processes, and technological support aimed at enabling organizations to implement the three key attributes that help to see superior business results from their digital and technology-related investments: portfolio alignment, value-oriented decision-making, and continuous portfolio adaptability.

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.
