

## IBM Z System Automation 4.3 Operations

Varighed: 4 Days    Kursus Kode: SM929G    Leveringsmetode: Virtuel deltagelse

### Beskrivelse:

This course introduces and explains the IBM Z System Automation (SA for z/OS) commands that are used for system operations. In this course, the System Automation Manager and Automation Agent run in a z/OS 2.4 environment. The automation platform, IBM Z Netview is at version 6 release 4 and IBM Z System Automation is at version 4 release 3. The course uses several automation scenarios in single and multisystem configurations to demonstrate the concepts that are taught in the lessons. This training class is delivered in an environment with multiple opportunities for hands-on lab exercises.

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

### Målgruppe:

Users of IBM Z System Automation, especially operators, administrators, and system programmers.

### Agenda:

- When you complete this course, you can use IBM Z System Automation 4.3 to perform the following tasks:
- Start and stop automated resources
- Monitor and control automated resources
- IPL and shut down systems and an SAPlex

### Forudsætninger:

- Basic z/OS operations skills
- Basic NetView skills helpful

### Yderligere Kurser:

SM939G IBM Z System Automation 4.3 Implementation and Administration
