

IBM Cloud Pak for Business Automation - Installation

Varighed: 2 Days Kursus Kode: WB601G Leveringsmetode: Virtuel deltagelse

Beskrivelse:

This course provides technical professionals with the needed skills to install IBM Cloud Pak for Business Automation capabilities. The course begins with an introduction to IBM Cloud Pak for Business Automation (CP4BA). You learn about different CP4BA installation methods. You configure the custom resource (CR) file for Business Automation Navigator (BAN), deploy, and verify that all the prerequisites are configured correctly.

You learn how to deploy the CP4BA capabilities such as FileNet Content Manager, Business Automation Studio, Business Automation Workflow, Operational Decision Manager, and Business Automation Insights. For each of the CP4BA capabilities, you verify the associated end points.

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Målgruppe:

This course is intended for administrators of IBM Cloud Pak for Business Automation (CP4BA) who want to deploy the CP4BA capabilities.

Agenda:

- After this course participants should be able to:
- Describe the products in the Cloud Pak for Business Automation
- Identify the benefits of various Cloud Pak for Business Automation installation options
- Explain the business value of the air gap installation technique for Cloud Pak for Business Automation

WB602G IBM Cloud Pak for Business Automation: Administration

Indhold:

Topics

- Course introduction
- Unit 1. Introduction to IBM Cloud Pak for Business Automation
- Unit 2. Installing Cloud Pak for Business Automation
- Unit 3. Cloud Pak for Business Automation (CP4BA) Operator
- Unit 4. Deploying Business Automation Navigator
- Exercise 1. Deploying Business Automation Navigator
- Unit 5. Deploying FileNet Content Manager
- Exercise 2. Deploying FileNet Content Manager
- Unit 6. Deploying Business Automation Workflow
- Exercise 3. Deploying Business Automation Workflow
- Unit 7. Deploying Operational Decision Manager
- Exercise 4. Deploying Operational Decision Manager
- Unit 8. Deploying Business Automation Insights
- Exercise 5. Deploying Business Automation Insights
- Unit 9. Course summary, badge, and other learning resources
- Course summary

Exercises

- Exercise 1. Deploying Business Automation Navigator
- Exercise 2. Deploying FileNet Content Manager
- Exercise 3. Deploying Business Automation Workflow
- Exercise 4. Deploying Operational Decision Manager
- Exercise 5. Deploying Business Automation Insights
