

IBM Business Automation Workflow 23.0.2: Advanced Development for Case Management Solutions

Varighed: 1 Day Kursus Kode: WB881G Leveringsmetode: Virtuel deltagelse

Beskrivelse:

In this one-day advanced course on case solution development, you learn advanced customization of the Calendar, toolbar, and menu widgets. You also learn how to wire widgets together, promote an existing case solution to a workflow project and integrate it with an existing process, and how to configure security for a case solution.

Målgruppe:

This course is intended for case solution developers of IBM Business Automation Workflow.

Agenda:

- After this course participants should be able to:
- Configure the Calendar widget and subscribe to external calendars
- Create and view quick tasks in the Calendar widget
- Customize the toolbar and menu for a case page
- Wire two widgets together
- Implement Script Adapter widgets to transform data
- Promote an existing case solution to a workflow project
- Integrating an existing process in a case solution
- Create, apply, and export a security configuration for a case solution

Forudsætninger:

Before taking this course, you should have:

- Familiarity with case management concepts
- Basic knowledge of programming techniques
- Understanding of JavaScript
