

Administration of IBM DataPower Gateway 10

Varighed: 2 Days Kursus Kode: WE531G Leveringsmetode: Virtuel deltagelse

Beskrivelse:

In this course, you manage the DataPower Gateway by using various management interfaces, such as the CLI, SOAP, and the WebGUI. You configure DataPower Gateway service resources. You examine the services supported on the DataPower Gateway. You create new user accounts, user groups, and domains in the DataPower Gateway interface. You troubleshoot the DataPower Gateway. You secure connections by using cryptographic tools and SSL. Finally, you capture information from DataPower events with logging.

Virtuel deltagelse

Et V&C Select kursus indholder nøjagtig det samme som et almindeligt kursus. Før kursusstart modtager man kursusmaterialet. Dernæst logger man på kurset via internettet og ser via sin pc den selvsamme præsentation som de øvrige deltagere, man kommunikerer via chat med underviseren og de øvrige deltagere på kurset. Denne uddannelsesmodel er både tids-og omkostningsbesparende og kan være et oplagt alternativ til almindelig klasseundervisning, hvis man f.eks. har et begrænset rejsebudget.

Målgruppe:

This course is intended for administrators of the IBM DataPowerGateway product.

Agenda:

- | | |
|---|--|
| ■ After this course participants should be able to: | ■ Understand DataPower services |
| ■ Describe the DataPower deployment environments | ■ Configure software access |
| ■ Set up the DataPower Gateway | ■ Troubleshoot and debug services |
| ■ Manage the DataPower Gateway | ■ Configure the DataPower Gateway security |
| ■ Explain DataPower administration | ■ Understand logging and log targets |
| ■ Create and manage requests with DataPower Gateway | |

Forudsætninger:

■

Indhold:

- | | | |
|---|-----------------------------------|--|
| ■ Configuration | ■ Secure connections | ■ Exercise 2. Managing DataPower software with the CLI and XML Management Interfaces |
| ■ Services | ■ Logs | ■ Exercise 3. Debugging errors with troubleshooting tools |
| ■ Creation of new user accounts, user groups, and domains | ■ Practice Labs | ■ Exercise 4. Securing connections with SSL |
| ■ Troubleshoot | ■ Exercise 1. Configure DataPower | ■ Exercise 5. Logging to an external system |
