
Red Hat Enterprise System Monitoring and Performance Tuning Exam

Duration: 1 Days Course Code: EX442

Overview:

The Red Hat® Enterprise System Monitoring and Performance Tuning Expertise Exam is a performance-based test of the skills covered in Red Hat Enterprise System Monitoring and Performance Tuning (RH442). To enroll in this exam, candidates must hold a current RHCE® certification.

Target Audience:

Experienced Linux® system administrators responsible for maximizing resource utilization through performance tuning and RHCEs interested in earning a Red Hat Certification of Expertise or an RHCA certification.

Objectives:

- Exam candidates must have a current RHCE certification at the time of enrollment.
 -
 - This exam is performance-based, meaning that candidates must perform tasks on a live system, rather than answering questions about how one might perform those tasks.
 -
 - The hands-on nature of this exam make real-world experience a critical facet of preparation.
 -
 - Exam results are emailed within (5) US business days following the exam.
 -
 - See re-certification policies for more information regarding 'current' window for all credentials.
-

Prerequisites:

- Exam candidates must:
- Hold a current RHCE certification at the time the exam is taken.
- Have Red Hat Enterprise System Monitoring and Performance Tuning (RH442) or equivalent experience.
- Understand that real-world system administration experience is also an important aspect of preparation for the exam.
- Review exam objectives for Red Hat Enterprise System Monitoring and Performance Tuning Expertise Exam.

Testing and Certification

- Length 4 Hours, 09.00am start
 - This exam prepares you for these credentials:
 - Red Hat Certified Architect — RHCA
 - Certificates of Expertise
-
