

ISO/IEC 27001 Information Security Management System Foundation (PECB Certified) - Including Exam

Duration: 2 Days Course Code: ISO27001F Version: 2022

Overview:

ISO/IEC 27001:2022 Foundation training allows you to learn the basic elements to implement and manage an Information Security Management System as specified in ISO/IEC 27001:2022. During this training course, you will be able to understand the different modules of ISMS, including ISMS policy, procedures, performance measurements, management commitment, internal audit, management review and continual improvement.

After completing this course, you can sit for the exam and apply for the “PECB Certificate Holder in ISO/IEC 27001:2022 Foundation” credential. A PECB Foundation Certificate shows that you have understood the fundamental methodologies, requirements, framework and management approach.

Target Audience:

- Managers and consultants seeking to know more about information security
- Professionals wishing to get acquainted with ISO/IEC 27001:2022 requirements for an ISMS
- Individuals engaged in or responsible for information security activities in their organization
- Individuals wishing to pursue a career in information security

Objectives:

- Describe the main information security management concepts, principles, and definitions
- Identify approaches, methods, and techniques used for the implementation and management of an ISMS
- Explain the main ISO/IEC 27001:2022 requirements for an information security management system (ISMS)

Prerequisites:

- None

Testing and Certification

The exam fully meets the requirements of the PECB Examination and Certificate Programme. It covers the following competency domains:

- **Domain 1:** Fundamental principles and concepts of an Information Security Management System (ISMS)

■ **Domain 2:** Information Security Management System (ISMS)
First, a candidate needs to complete the PECB ISO/IEC 27001:2022 Foundation training course. Then, they need to take the exam and after successfully passing the exam, candidates will be able to apply for the “PECB Certificate Holder in ISO/IEC 27001:2022 Foundation” certificate. This is an entry-level credential.

There are no prerequisites on professional or management system project experience required. Thus, following the training course, passing the exam and applying for the certificate are the only certificate program requisites that certificate holders shall meet before obtaining the certificate.

The certificate requirements for **ISO/IEC 27001:2022 Foundation** are as follows:

- **Designation:** PECB Certificate Holder in ISO/IEC 27001:2022 Foundation

- **Training course:** Completion of the PECB ISO/IEC 27001:2022 Foundation training course
- **Exam:** Pass the PECB ISO/IEC 27001:2022 Foundation exam
- **Professional experience:** None required
- **MS audit/assessment experience:** None required
- **ISMS project experience:** None required
- **Other requirements:** Signing the PECB Code of Ethics
