- Overview of scheduling capabilities
- Overview of the schedule board
- Schedule and reschedule
- Reschedule and move items
- Exercise - Schedule items
- Check your knowledge
- Summary

Customize the schedule board in Dynamics 365 Field Service

- Work with multiple schedule boards
- Schedule Board options
- Design and use views with the Schedule Board
- Configure schedule board filter queries
- Exercise - Customize the Schedule Board
- Check your knowledge
- Summary

Deploying Resource Scheduling Optimization

- Resource Scheduling Optimization overview
- Setup and deployment options
- RSO configuration options
- Define optimization goals
- Define optimization scopes
- Define optimization schedules
- Check your knowledge
- Summary

Get started with the Dynamics 365 Field Service Mobile application

- Introduction
- Deploy the mobile application
- Work with the mobile application
- Service customer assets
- Work offline and update offline data
- More mobile application capabilities
- Check your knowledge
- Summary

Customize and configure the Dynamics 365 Field Service Mobile application

- Introduction
- Edit the mobile application
- Offline configuration
- Barcode scanning and global search
- Audit locations
- Configure push notifications
- Check your knowledge
- Summary

Integrate Dynamics 365 Remote Assist with Dynamics 365 Field Service

Customer assets in Dynamics 365 Field Service

- Introduction
- Create customer assets
- Associate customer assets
- Set up customer asset hierarchies
- Use functional locations
- Check your knowledge
- Summary
