

Palo Alto Networks Panorama: Managing Firewalls at Scale (EDU-220)

Duration: 2 Days **Course Code: PAN-EDU-220** **Version: 11.B** **Delivery Method: Virtual Learning**

Overview:

This course should help students gain in-depth knowledge about configuring and managing a Palo Alto Networks Panorama management server. Administrators that complete this course should become familiar with the Panorama management server's role in managing and securing the overall network. Network professionals will be shown how to use Panorama aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks next-generation firewalls.

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

Target Audience:

This course is aimed at Security Administrators, Security Operations Specialists, Security Analysts, Security Engineers, and Security Architects

Objectives:

- After you complete this course, you will be able to:
- Learn how to configure and manage the next-generation Panorama management server
- Gain experience configuring templates (including template variables) and device groups
- Gain experience with administration, log collection, and logging and reporting
- Become familiar with planning and design considerations for Panorama deployment

Prerequisites:

Students must have completed the Firewall Essentials: Configuration and Management (EDU-210) class. Students must be familiar with Palo Alto Networks next-generation firewall management and basic networking concepts, including routing and IP addressing.

- PAN-EDU-210 - Palo Alto Networks: Firewall Essentials: Configuration and Management (EDU-210)

Follow-on-Courses:

- PAN-EDU-330 - Palo Alto Networks: Firewall: Troubleshooting (EDU-330)

Content:

1 - Initial Configuration

4 - Device Groups

7 - Panorama Administrative Accounts

2 - Adding Firewalls

5 - Log Collection and Forwarding

8 - Reporting

3 - Templates

6 - Using Panorama Logs

9 - Troubleshooting

Additional Information:

Level: Intermediate Duration: 2 days Format: Lecture and hands-on labs Platform support: Palo Alto Networks Panorama 11.0
