
Web Isolation Planning Implementation and Administration R2

Duration: 1 Day Course Code: S000195 Delivery Method: Virtual Learning

Overview:

The Symantec Web Isolation Planning, Implementation, and Administration R2 course provides a detailed introduction to Symantec's two cloud-based isolation services: High Risk Isolation (HRI) and the Web Isolation dedicated tenant.

The course includes implementation of the key protection scenarios with both Web Security Service and the ProxySG, as well as a description of the functions available in the Web Isolation management console.

Updated August 2026

Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

IT and security professionals responsible for the deployment, administration, and management of Symantec Web Isolation solutions.

Objectives:

- | | |
|--|---|
| <ul style="list-style-type: none">■ After this course participants should be able to:■ Describe the major Web Isolation functions and capabilities | <ul style="list-style-type: none">■ Write policies to selectively isolate risky and uncategorized websites, allow privileged users greater access, and defend against phishing and ransomware attacks■ View reports and monitor solution performance |
|--|---|
-

Prerequisites:

- Basic understanding of networking concepts
- Basic understanding of network security concepts
- Basic understanding of the use of proxy servers

Testing and Certification

None

Follow-on-Courses:

The following courses are recommended for further learning and development:

S000208 – Web Protection - Cloud SWG Planning, Implementation, and Administration

S000304 – Symantec Edge SWG Administration

Content:

Module 1: Introduction to Symantec Web Isolation

- The need for a web isolation solution
- Symantec Web isolation—Protection without detection
- High Risk Isolation web traffic protection
- Web Isolation dedicated tenant web traffic protection

Module 2: Implementing Web Isolation

- Implementing Isolation with Web Security Service
- Implementing Isolation with the ProxySG

Module 3: Administering the Web Isolation dedicated tenant

- Web isolation management console overview
- Removing active content from webpages
- Isolating links embedded in email to defend against phishing attacks
- Enabling safe file download protections
- Working with applications remotely

Module 4: Viewing reports and monitoring performance

- Viewing reports
- Monitoring performance

Module 5: Integrating Web Isolation with DLP, CloudSOC Mirror Gateway, and Email Security.cloud

- Integrating Web Isolation with DLP
- Integrating Web Isolation with CloudSOC Mirror Gateway
- Integrating Web Isolation with Symantec Email Security.cloud
- Integrating Web Isolation with third-party providers

Module 6: Course review

- Symantec Web Isolation course review

Additional Information:

Hands-On

This course includes pre-recorded demonstrations that illustrate the concepts discussed in the lessons.
