

## IBM AIX Basics

**Duration: 3 Days    Course Code: AN10G    Delivery Method: Virtual Learning**

### Overview:

**Learn to perform everyday tasks using the AIX operating system.**

This course provides lectures and hands on labs in an instructor lead course environment, either in a face-to-face classroom or in a live virtual classroom environment (ILO - Instructor Led Online). The lab images are using the AIX 7.3 operating system.

#### Virtual Learning

This interactive training can be taken from any location, your office or home and is delivered by a trainer. This training does not have any delegates in the class with the instructor, since all delegates are virtually connected. Virtual delegates do not travel to this course, Global Knowledge will send you all the information needed before the start of the course and you can test the logins.

### Target Audience:

This basic course is intended for anyone who requires basic AIX/UNIX user skills to be able to work in an AIX environment. This course is also a prerequisite for many courses in the AIX Systems Administration curriculum.

### Objectives:

- |                                                            |                                                        |
|------------------------------------------------------------|--------------------------------------------------------|
| ■ <b>After this course participants should be able to:</b> | ■ Use the vi editor                                    |
| ■ Log into an AIX system and set a user password           | ■ Execute common AIX commands and manage AIX processes |
| ■ Use AIX on-line documentation                            | ■ Customize the working environment                    |
| ■ Manage AIX files and directories                         | ■ Use common AIX utilities                             |
| ■ Describe the purpose of the shell                        |                                                        |

### Prerequisites:

You should be familiar with:

- Basic information technology (IT) concepts and the role of an operating system

### Testing and Certification

None

### Follow-on-Courses:

- AN11G Power Systems for AIX I: LPAR Configuration and Planning
- AN12G Mastering IBM AIX: Implementation and Administration

## Content:

|                                  |                               |                                          |
|----------------------------------|-------------------------------|------------------------------------------|
| Unit 0. AIX Basics               | Unit 4. Using files           | Unit 8. Processes                        |
| Unit 1. Getting started with AIX | Unit 5. File permissions      | Unit 9. Customizing the user environment |
| Unit 2. Files and directories    | Unit 6. Shell basics          | Unit 10. AIX utilities: Part 1           |
| Unit 3. The vi editor            | Unit 7. Using shell variables | Unit 11. AIX utilities: Part 2           |
