
AIX Network Installation Manager (NIM) I: Concepts and Configuration

Duración: 2 Días **Código del Curso: AN22G**

Temario:

The primary goal of this course is to provide you with a working knowledge of the fundamental capabilities of the Network Installation Management (NIM) facility of the AIX 7.1 operating system. This course uses a combination of instructor lecture and machine exercises to provide you with practical background knowledge of the topics covered.

Learning Journeys or Training Paths that reference this course: **IBM Power AIX Power AIX Administrator Power AIX Administrators: Operating systems Power AIX Administrators: Network and Security AIX Users and System Administration**

Dirigido a:

This course is appropriate for anyone with system administrative duties installing and managing an AIX operating system in a multiuser POWER (System p) environment.

Objetivos:

- Explain key NIM concepts and terminology
 - Display NIM-related information
 - Set up a NIM master
 - Perform a base AIX (RTE) install
 - Define and use several types of NIM objects
 - Perform an automated install
 - Create and use mksysb resource
 - Maintain lpp_source and SPOT resources
 - Update NIM clients
-

Prerequisitos:

You should have:

- Basic knowledge regarding AIX systems administration
- Basic knowledge regarding the use of HMC V7 to manage POWER-based managed systems

The following course will provided the needed skills for this course:

- *Power Systems for AIX I: LPAR Configuration and Planning (AN11G)*
 - *Power Systems for AIX II: AIX Implementation and Administration (AN12G)*
-

Contenido:

Day 1

- Welcome
- Unit 1: NIM overview
- Exercise 1: NIM overview
- Unit 2: Setting up the NIM master
- Exercise 2: Setting up the NIM master
- Unit 3: RTE installation
- Exercise 3: RTE installation
- Unit 4: Defining additional base install resources

Day 2

- Exercise 4: Defining additional base install resources
- Unit 5: NIM client backups and restores
- Exercise 5: NIM client backups and restores
- Unit 6: Managing the lpp_source and the SPOT resources
- Exercise 6: Managing the lpp_source and the SPOT resources
- Unit 7: NIM client updates
- Exercise 7: NIM client updates
