## Essential BizTalk

**Duración: 5 Días    Código del Curso: GK0903**

---

### Temario:

In this course, you will learn the best practices in BizTalk applications related to set up, configuration, development, deployment, tracking, and administration. You will also learn how orchestration, business rules, and business activity monitoring allow you to develop sophisticated, agile, and transparent business processes—all without writing any custom code. We'll be using the latest version of the product: BizTalk 2013.

---

### Dirigido a:

Architects and developers with limited or no experience with BizTalk who want to broaden their understanding

---
