Essential BizTalk

Duración: 5 Días   Código del Curso: GK0903   Método de Impartición: Curso Cerrado (In-Company)

Temario:

In this course, you will learn the best practices in BizTalk applications related to set up, configuration, development, deployment, tracking, and administration. You will also learn how orchestration, business rules, and business activity monitoring allow you to develop sophisticated, agile, and transparent business processes—all without writing any custom code. We'll be using the latest version of the product: BizTalk 2013.
