

## GenAIBIZ - Making Generative AI Work for Your Business

**Duración: 1 Día**    **Código del Curso: GK840031**    **Método de Impartición: Curso Cerrado (In-Company)**

### Temario:

Generative artificial intelligence (AI) is a major milestone in business automation. Despite its recency, it has already had a significant impact on our lives. But, the rapid pace at which generative AI is growing can be overwhelming. And, there are so many facets to this field that it can be difficult to know how to use it effectively to improve the business.

This course is designed to demystify generative AI for business professionals, as well as to trace its power to actionable, real-world business goals. It will give you the essential knowledge of generative AI you'll need to elevate the organization in these exciting times.

*Updated 10/2026*

Curso Cerrado (In-Company)

Debido a que nuestra formación es modular, nuestros responsables de formación e instructores pueden trabajar con usted y su equipo para detectar las necesidades formativas y adaptar un temario de forma rápida y rentable. Durante una formación cerrada, usted recibirá una formación de expertos en un curriculum adaptado a sus necesidades.

### Dirigido a:

This course is primarily designed for business leaders, consultants, product and project managers, and other decision makers who are interested in unlocking new business opportunities and augmenting existing business processes using generative AI. It's also a great starting point for any business professionals who want to investigate generative AI solutions for their own individual tasks and workflows.

This course is also designed to assist students in preparing for the CertNexus® GenAIBIZ™ (Exam GAZ-210) credential.

### Objetivos:

- In this course, you will identify ways in which generative AI can bring significant value to the organization. You will:
  - Generate audio using AI.
  - Generate code using AI.
  - Identify the challenges of generative AI.
  - Implement business strategies for generative AI.
- Describe the fundamentals of AI and generative AI.
- Generate text using AI.
- Generate images and video using AI.

### Prerequisites:

To ensure your success in this course, you should have a foundational knowledge of business processes and general business concepts. You should also have at least a basic understanding of information technology resources and systems, including networks, computers, and other electronic devices used in the enterprise.

### Exámenes y certificación

None

### Siguientes cursos recomendados:

None
