
Introduction to Junos OS Evolved

Duración: 1 Días Código del Curso: IJEVO Método de Impartición: Curso Remoto (Virtual)

Temario:

This one-day course is designed to provide students with the knowledge required to work with the Junos OS Evolved. The Junos OS has evolved since its creation in order to leverage advanced operating system and platform technologies. As it has evolved, key fundamental concepts have changed, and continue to change, in how the operating system functions and is used by administrators. This course explains the key changes to the operating system and how it interacts with routing and switching platforms, and how the configuration and administrative tasks performed on Junos OS Evolved differ from Junos OS configuration and administrative tasks. Through demonstrations, students will gain experience with features of each of these devices. This course currently does not contain labs. This course is based on QFX/PTX Release 19.4.
