
ISTQB Advanced Technical Test Analyst + exam

Duración: 3 Días Código del Curso: ISTQBA-TTA Método de Impartición: Curso Remoto (Virtual)

Temario:

The three-day ISTQB Advanced Technical Test Analyst course prepares participants for the ISTQB Advanced Technical Test Analyst certificate. After the training the participant can design and execute structural (white box) tests, especially focused on non-functional quality attributes such as performance, security and maintainability. In addition the participant has insight into the important role of the technical test analyst in the field of test automation and static and dynamic analysis.

Curso Remoto (Abierto)

Nuestra solución de formación remota o virtual, combina tecnologías de alta calidad y la experiencia de nuestros formadores, contenidos, ejercicios e interacción entre compañeros que estén atendiendo la formación, para garantizar una sesión formativa superior, independiente de la ubicación de los alumnos.

Dirigido a:

This course is intended for professionals in software testing, such as testers, test analysts, test engineers, test consultants, test managers, acceptance testers and developers.
The ISTQB Advanced Technical Test Analyst training course is also suitable for anyone who wants to gain in-depth knowledge about designing software tests, such as project managers, quality managers, development managers, business analysts, heads of IT and management consultants.
