

## ITIL® 4 Practitioner: Problem Management - Including Exam

**Duración: 1 Día**    **Código del Curso: ITIL4P-MSF-PM**    **Método de Impartición: Curso Remoto (Virtual)**

### Temario:

This 1-day ITIL® 4 Practitioner: Problem Management focuses on providing the candidates with the understanding of the key concepts, principles, value and challenges of the Problem Management Practices. It is intended to provide candidates with best practice guidance at both strategic and operational levels on how to reduce the likelihood and impact of incidents by identifying actual and potential causes of incidents, and managing workarounds and known errors.

The ITIL 4 Problem Management Practices module is structured and aligned around the ITIL framework. The examination is intended to assess whether the candidate can demonstrate sufficient understanding and application of the concepts covered in the ITIL 4 Problem Management Practices publication.
