Finally, we cover additional customer service apps such as Omnichannel for Customer Service, Dynamics 365 Customer Service Insights, Customer Service Scheduling and Connected Customer Service.

Lessons for module 3

- Examine Dynamics 365 Customer Service
- Describe Dynamics Customer Service capabilities
- Review additional customer service apps

Lab : Dynamics 365 Capstone Lab

- Create and publish a Knowledge Article
- Manage a support Case through its life cycle
- Create a Case and escalate to a Work Order
- Schedule items with Dynamics 365 Field Service

After completing module 3, students will be able to:

- Describe the standard customer service processes and how Dynamics 365

Lessons for module 4

- Examine Dynamics Field Service
- Generate Work Orders in Dynamics 365 Field Service
- Describe the scheduling capabilities of Dynamics 365 Field Service
- Examine the inventory management capabilities of Dynamics 365 Field Service
- Review the asset management capabilities of Dynamics 365 Field Service

Lab : Dynamics 365 Capstone Lab

- Create and publish a Knowledge Article
- Manage a support Case through its life cycle
- Create a Case and escalate to a Work Order
- Schedule items with Dynamics 365 Field Service

After completing module 4, students will be able to:

- Describe the standard field service business processes and how Dynamics 365 Field Service addresses
- Describe how to generate Work Orders
- Describe the scheduling capabilities of Dynamics 365 Field Service
- Describe the inventory management capabilities of Dynamics 365 Field Service
- Describe the asset management capabilities of Dynamics 365 Field Service

Module 5: Learn the Fundamentals of Dynamics 365 Project Operations (CRM)

This module provides an introduction to the customer engagement aspects of Dynamics 365 Project Operations. We begin with the standard project-based business processes and how Project Operations addresses those. Then we examine the product capabilities, including sales, project management, and resource utilization.

Lessons for module 5

- Examine Dynamics 365 Project Operations
- Describe the sales capabilities of Dynamics 365 Project Operations
- Plan projects with Dynamics 365 Project Operations
- Review the resource utilization capabilities of Dynamics 365 Project Operations

Lab : Dynamics 365 Project Operations Capstone Lab

sales apps such as Sales Insights and Sales Navigator.

- Customer Service addresses them
- Describe Dynamics Customer Service capabilities
 - Describe additional sales apps such as Sales Insights and Sales Navigator

Module 4: Learn the Fundamentals of Dynamics 365 Field Service

This module provides an introduction to Dynamics 365 Field Service. We begin with the standard field service business processes and how Field Service addresses those. Then we examine the product capabilities, including work order generation, scheduling, inventory management and asset management.

- Create a project-based Lead
- Manage a project-based Opportunity
- Create a Project Quote and Project Estimate

After completing module 5, students will be able to:

- Describe project-based customer engagement processes addressed by Dynamics 365 Project Operations
- Describe the sales capabilities of Dynamics 365 Project Operations
- Describe the project management capabilities of Dynamics 365 Project Operations
- Describe the resource utilization capabilities of Dynamics 365 Project Operations
