Temario:

Empower your workforce with Microsoft 365 Copilot Use Cases, students perform a series of hands-on exercises involving ten Use Cases - Executives, Sales, Marketing, Finance, IT, HR, Operations, Communications, Customer Service, and Legal. These exercises focus on using Copilot in various Microsoft 365 apps (such as Word, PowerPoint, Outlook, and so on) to complete a series of common business-related tasks pertaining to each Use Case. To complete the Use Case exercises in this course, each student must have access to a Microsoft 365 subscription (BYOS) in which they're licensed to use Microsoft 365 Copilot. Each student must also have a Microsoft OneDrive account, since Copilot requires OneDrive to complete the file sharing tasks used throughout the Use Case exercises. This course has been created by Microsoft as a "Bring Your Own Environment" course, allowing individuals to use their personal devices and settings.
