
Introduction to IBM i for New Users

Duración: 1 Día Código del Curso: OE98G

Temario:

In this classroom course, you will learn basic concepts and skills you need to be productive users on the IBM i. With plenty of hands-on labs, we show everything from signing to the available user interfaces; green screen environment, System i Navigator and Systems Director Navigator for i. You will learn how objects are managed on the system and how you display these objects. You will learn to use Control Language (CL) commands (fast path) and how to work with and manage messages on the system. We will also address how the system manages work and how you manage your printouts. We will also provide a basic overview of security.

Learning Journeys or Training Paths that reference this course: **Power IBM i Operators** **Power IBM i Users** **End User**

Dirigido a:

This course is for new end users employed in a data processing environment who are new to Power Systems with IBM i.

Objetivos:

- | | |
|--|--|
| ■ After completing this course, you should be able to: | ■ Use the different interfaces available for IBM i |
| ■ Explain the functions supported by IBM i operating systems | ■ Understand how objects are managed |
| ■ Explain Power System with IBM i models and generations | ■ Enter control language (CL) commands |
| ■ Explain which applications are supported | ■ Send and receive messages and work with message queues |
| ■ Sign on / off the system | ■ Manage work and output |
| ■ Use the display station keyboard | ■ Explain basic security concepts on IBM i |
| ■ Use the online help that is available | |
-

Prerequisitos:

There are no prerequisites for this course.

Siguientes cursos recomendados:

This course is part of the Power Systems with IBM i curriculum. Additional courses that may be of interest include:

- DB2 Web Query: Introduction to Reporting Functions (OD04G)
 - Accessing the IBM Database using SQL (OL37G)
 - System Operator Workshop for IBM i (AS24G)
 - Advanced System Operator Workshop for IBM i (AS27G)
-

Contenido:

Unit 2 - Using the 5250 emulation interface

- Exercise 1- Using the 5250 emulation interface

Unit 3 – Overview of IBM I Access Client Solutions

- Exercise 2 – Overview of IBM i Access Client Solutions

Unit 4 - Using IBM Navigator for i

- Exercise 3 - Using IBM Navigator for i

Unit 5 - Using the messages function on IBM i

Exercise 4 - Using the messages function with a display session

- Exercise 5 - Using the messages function with IBM Navigator for i

Unit 6 - Using CL commands on IBM i

Exercise 6 - Using CL commands with a display session

- Exercise 7 - Using CL commands with IBM Navigator for i

Unit 7 - Managing objects on IBM i

- Exercise 8 - Object management on IBM i

Unit 8 - Managing your work on IBM i

- Exercise 9 - Tracking jobs and printouts on IBM i
- Unit 9 - IBM i security overview
- Unit 10 - Additional education
