

Palo Alto Networks: Cortex XSOAR Engineering Security Automation Solutions (CXSOAR)

Duración: 4 Días **Código del Curso: PAN-CXSOARESAS**

Temario:

The Palo Alto Networks Cortex XSOAR: Engineering Security Automation Solutions course is a four-day instructor-led training with a blend of lectures and hands-on labs. This training will enable students to use Cortex XSOAR to:

- Conduct incident investigation and response activities on a phishing campaign
- Create custom dashboards and generate reports
- Install multiple engines and configure a load balancing group
- Use built-in and external integrations to ingest incidents and automate security processes
- Plan and implement an automation use case by building playbooks and automation scripts

Dirigido a:

- SOC / SIEM / Automation Engineers
- MSSPs and Service Delivery Partners working with XSOAR

Objetivos:

- Successful completion of this four-day, instructor-led course should enable students to integrate their existing security tools with Cortex XSOAR to streamline security processes, accelerate security outcomes, and automate manual security-oriented tasks.

Prerequisitos:

Participants should have a basic understanding of:

- Networking concepts, such as identifying private IPs and domains
- Cybersecurity concepts, such as Indicators of Compromise
- Navigating Windows and Linux environments using the GUI and CLI

Contenido:

Course Modules	3 - Threat Intelligence	7 - Architecture
0 - Course Introduction	4 - Analyst Investigations	8 - Use Case Planning and Implementation
1 - XSOAR Overview	5 - Dashboards, Reports, and Timers	9 - Playbook Development
2 - Incident Management	6 - Integrations and Content Management	10 - Automation Scripts

Información Adicional:

Palo Alto Networks Education

The technical curriculum developed by Palo Alto Networks and delivered by Palo Alto Networks Authorized Training Partners helps provide the knowledge and expertise you need to protect our digital way of life. Our trusted certifications validate your knowledge of the Palo Alto Networks product portfolio and your ability to help prevent successful cyberattacks.
