

## Palo Alto Networks: Panorama NGFW Management

**Duración: 2 Días**    **Código del Curso: PAN-PNGFWM**

### Temario:

The Palo Alto Networks Panorama: NGFW Management course is two days of instructor-led training that should help you to:

- Learn how to configure and manage the next-generation Panorama management server
- Gain experience configuring templates (including template variables) and device groups
- Gain experience with administration, log collection, and logging and reporting
- Become familiar with planning and design considerations for Panorama deployment

### Dirigido a:

- Security Administrators
- Security Operations Specialists
- Security Analysts
- Security Engineers and Architects

### Objetivos:

- This course should help students gain in-depth knowledge about configuring and managing a Palo Alto Networks Panorama management server. Administrators that complete this course should become familiar with the Panorama management servers role in managing and securing the overall network.
- Network professionals will be shown how to use Panorama aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks next[1]generation firewalls.

### Prerequisitos:

Participants must be familiar with Palo Alto Networks next-generation firewall management and basic networking concepts, including routing and IP addressing.

In addition, participants should complete the following pre-requisites to be optimally prepared for the course:

- Firewall Essentials: Configuration and Management or equivalent experience.

### Exámenes y certificación

Palo Alto Networks: Certified Next-Generation Firewall Engineer

### Contenido:
