

Introduction to HTML & CSS

Duración: 1 Día Código del Curso: HCSSI

Temario:

English - Please note this course is only available in English.

Español - Por favor, tenga en cuenta que esta formación solo está disponible en inglés.

Introduction to HTML & CSS Course Overview

HTML & CSS are the fundamental building blocks of the web. This course is designed to provide delegates with the fundamental knowled

Dirigido a:

Who will the Course Benefit?

The course is aimed at those who are new to HTML & CSS and who need only know the basics (for now). The course serves as a foundation for further learning and provides just enough for those wishing to learn front-end JavaScript. For more in-depth coverage of the languages, delegates should instead consider the course: Modern, Responsive Websites with HTML & CSS.

Objetivos:

Course Objectives

- This course aims to provide delegates with the skills and knowledge necessary to construct simple web pages that exploit most of the core HTML elements including text elements, hyperlinks, images, tables, and forms. Delegates should also be able to apply basic styling to HTML elements using core CSS selectors and properties.

Prerequisites:

- Delegates need only possess basic computing skills - navigate the filesystem, create and edit files and surf the web.

Siguientes cursos recomendados:

Further Learning

- Modern, Responsive Websites with HTML & CSS
- Core JavaScript
- JavaScript Developer

Contenido:

Introduction to HTML ; CSS Training Course Course Contents - DAY 1
