English Delivery Only: Introduction to HTML & CSS

Duración: 1 Días **Código del Curso: HCSSI** **Método de Impartición: Curso Remoto (Virtual)**

Temario:

*** Course delivered in English (UK) ***Introduction to HTML & CSS Course Overview

HTML & CSS are the fundamental building blocks of the web. This course is designed to provide delegates with the fundamental knowledge and skills necessary to build simple web pages. It further serves to provide a platform for further learning both in HTML and CSS,and JavaScript.

Delegates will learn how to build simple web pages that incorporate text elements,hyperlinks,images,tables and (simple) forms. Delegates will also learn about CSS and how to apply basic styling to HTML elements.

Exercises and examples are used throughout the course to give practical hands-on experience with the techniques covered.

Course Notes:

There is an overlap between the content of this 1 day Introduction to HTML & CSS course and the content on the suggested follow-on 3 day Modern,Responsive Websites with HTML & CSS course.

You may wish to review the content of the Modern,Responsive Websites with HTML & CSS course and if more suitable to your training needs attend this course rather than the 1 day Introduction to HTML & CSS course.

Curso Remoto (Abierto)

Nuestra solución de formación remota o virtual, combina tecnologías de alta calidad y la experiencia de nuestros formadores, contenidos, ejercicios e interacción entre compañeros que estén atendiendo la formación, para garantizar una sesión formativa superior, independiente de la ubicación de los alumnos.

Dirigido a:

Who will the Course Benefit?

The course is aimed at those who are new to HTML & CSS and who need only know the basics (for now). The course serves as a foundation for further learning and provides just enough for those wishing to learn front-end JavaScript. For more in-depth coverage of the languages,delegates should instead consider the course: Modern,Responsive Websites with HTML & CSS.

Objetivos:

- Course Objectives

- This course aims to provide delegates with the skills and knowledge necessary to construct simple web pages that exploit most of the core HTML elements including text elements,hyperlinks,images,tables,and forms. Delegates should also be able to apply basic styling to HTML elements using core CSS selectors and properties.

Prerequisitos:

-
Delegates need only possess basic computing skills - navigate the filesystem,create and edit files and surf the web.

Siguientes cursos recomendados:

Further Learning

- Modern,Responsive Websites with HTML & CSS
- Core JavaScript
- JavaScript Developer

Contenido:
