

PowerHA SystemMirror 7 Planning and Implementation and Customization and Basic Administration

Duración: 5 Días Código del Curso: AN61G Método de Impartición: Curso Remoto (Virtual)

Temario:

This course is designed to prepare students to install and configure a highly available cluster using PowerHA SystemMirror. Important: This course consists of several independent modules. The modules, including the lab exercises, stand on their own and do not depend on any other content. The exercises are conducted on an AIX 7.2 TL1 level system.

Curso Remoto (Abierto)

Nuestra solución de formación remota o virtual, combina tecnologías de alta calidad y la experiencia de nuestros formadores, contenidos, ejercicios e interacción entre compañeros que estén atendiendo la formación, para garantizar una sesión formativa superior, independiente de la ubicación de los alumnos.

Dirigido a:

The recommended audience for this course is students who are: experienced AIX system administrators with TCP/IP networking and AIX Logical Volume Manager (LVM) experienced responsible for the planning and installation of a PowerHA SystemMirror 7.2.1 and later cluster on an IBM Power Systems server running AIX V7.2 or later.

Objetivos:

- After this course, participants should be able to:
- Explain what high availability is
- Outline the capabilities of PowerHA SystemMirror
- Design and plan a highly available PowerHA cluster
- Install and configure PowerHA SystemMirror in the following modes of operation:
 - Single resource group on a primary node with standby node (active/passive)
 - Two resource groups in a mutual takeover configuration (active/active)
 - Configure resource group startup, fallover, and fallback policies
 - Perform basic system administration tasks for PowerHA
 - Perform basic customization for PowerHA
 - Perform basic problem determination and recovery

Prerequisites:

You should be AIX system administrator and have TCP/IP, LVM storage, and disk hardware implementation skills.

Siguientes cursos recomendados:

This course is the first in the PowerHA 7 curriculum.

The following course can be taken after this course is completed: AN62G: PowerHA 7 Advanced Configurations

Contenido:

Day 1

- Welcome and course introduction
- Unit 1: Introduction to PowerHA SystemMirror
- Unit 2: Planning and configuring network and storage for PowerHA SystemMirror
- Exercise 1: Lab setup, cluster planning, and exploring fallover
- Exercise 2: Preparing the AIX environment for PowerHA SystemMirror

Day 2

- Unit 3: Configuring applications for PowerHA SystemMirror
- Unit 4: Configuring a PowerHA SystemMirror cluster
- Exercise 3: Preparing an application for integration with SystemMirror
- Exercise 4: Initial cluster configuration

Day 3

- Unit 5: Cluster validation and testing
- Unit 6: Basic PowerHA SystemMirror administration
- Exercise 5: Cluster validation and testing
- Exercise 6: Extending the configuration

Day 4

- Unit 7: Events
- Unit 8: Basic troubleshooting
- Exercise 7: Events
- Exercise 8: PowerHA SystemMirror problem determination

Day 5

- Unit 9: PowerHA SystemMirror installation
- Exercise 9: Install and maintain PowerHA SystemMirror
- Open lab

Información Adicional:

An official course book in english is shared with the participants
