Durée: 3 Jours **Réf de cours: BCS-BAP** **Méthodes d'apprentissage: Intra-entreprise & sur-mesure**

Résumé:

This 3-day BCS Certificate in Business Analysis Practice training covers the range of concepts, approaches and techniques that are applicable to the Practitioner Certificate in Business Analysis Practice and is relevant to anyone requiring a broad understanding of the subject. The certificate's focus is on using a holistic approach to the investigation and improvement of business situations, with a view to developing effective, feasible business solutions.

Company Events

These events can be delivered exclusively for your company at our locations or yours, specifically for your delegates and your needs. The Company Events can be tailored or standard course deliveries.

Public visé:

For people who already have a business analysis role and want to gain a deeper understanding of business analysis strategy and application. Suitable for business analysts, business managers and members of their team, business change managers and project managers.

Objectifs pédagogiques:

- Candidates should be able to demonstrate knowledge, understanding and application of
 - Business Analysis Practice principles and techniques in the following areas:
 - The breadth of the role of a Business Analyst (BA), the value of the role to organisations
 - and the skills required of a BA to support successful business change.
 - The processes and techniques of strategy analysis.
 - Investigation of an organisation's business systems in order to uncover the problems
 - and issues occurring within them.
 - The importance of, and techniques used within, stakeholder management and the need
 - for analysing perspectives.
 - Conceptual modelling through the use of business activity models.
 - Recommendations for business improvements and how they may be identified through
 - gap analysis between desired and current business models.
 - The role of a business case within the business change lifecycle, including the contents
 - of a business case for the development and implementation of business changes.

Pré-requis:

There are no requirements, but candidates should have some practical experience of business analysis.
