Cybersecurity Maturity Model Certification (CMMC) Certified Professional (PECB Certified) - Including Exam

Durée: 4 Jours **Réf de cours: CMMC-P** **Méthodes d'apprentissage: Classe à distance**

Résumé:

Certified CMMC Professional training course enables participants to acquire a comprehensive understanding of the Cybersecurity Maturity Model Certification (CMMC) model and its requirements. It is a gateway for assessors, as it is a prerequisite to achieve the Certified CMMC Assessor credential.
By attending the Certified CMMC Professional training course, you will acquire knowledge about the structure of the CMMC 2.0 model including CMMC levels, domains, and practices. In addition, you will develop the ability to understand, differentiate, and explain the relationship between the CMMC and the primary reference documentation such as FAR 52.204-21, DFARS 252.204-7012, and NIST SP 800-171. You will be able to (a) identify, describe, and compare the roles and responsibilities of each member of the CMMC ecosystem, (b) identify and mitigate ethical concerns based on CMMC Code of Professional Conduct, (c) identify and analyze the CMMC model source and supplementary documents, (d) understand the implementation of CMMC practices and review of CMMC level 1 practices, (e) explain the CMMC assessment phases and the role of the Certified CMMC Professional in CMMC assessment process, and (f) understand how to define the CMMC high-level scoping.
This training course will allow you to become a valuable asset for CMMC Third-Party Assessment Organizations (C3PAOs), organizations demanding CMMC trained resources, and consultancy agencies.
The successful completion of the training course is followed by an exam. If you pass the exam, you can apply for the “Certified CMMC Professional” credential.
