

ISO/IEC 27001:2022 Sécurité de l'information : Lead Implementer (PECB certified) - Examen inclus

Durée: 5 Jours Réf de cours: ISO27001LI Version: 9.0

Résumé:

The ISO/IEC 27001 Lead Implementer training course enables participants to acquire the knowledge necessary to support an organization in effectively planning, implementing, managing, monitoring, and maintaining an information security management system (ISMS).

Why Should You Attend?

Information security threats and attacks increase and improve constantly. The best form of defense against them is the proper implementation and management of information security controls and best practices. Information security is also a key expectation and requirement of customers, legislators, and other interested parties.

This training course is designed to prepare participants in implementing an information security management system (ISMS) based on ISO/IEC 27001. It aims to provide a comprehensive understanding of the best practices of an ISMS and a framework for its continual management and improvement.

After attending the training course, you can take the exam. If you successfully pass it, you can apply for a "PECB Certified ISO/IEC 27001 Lead Implementer" credential, which demonstrates your ability and practical knowledge to implement an ISMS based on the requirements of ISO/IEC 27001.

Please Note:

Certification and examination fees are included in the price of the training course

This training course contains essay-type exercises, multiple-choice quizzes, examples, and best practices used in the implementation of an ISMS.

The participants are encouraged to communicate with each other and engage in discussions when completing quizzes and exercises.

The exercises are based on a case study.

The structure of the quizzes is similar to that of the certification exam
